

Brand	Area 1 %	Area 2 %		
A	15,7	21,1		
B	24,3	33,3		
Other	60	45,6		
Interpretation:	Area 2 shows stronger branded preference; Area 1 is dominated by 'Other.'			

Prevalence	Location A	Location B %		
Absent	14,3	45,5		
Sparse	39,3	31,8		
Abundant	46,4	22,7		
Interpretation:	Location A is much richer; Location B has nearly half of transects absent.			

Class Interval	Relative Freq		
(-2,0]	0,02		
(0,2]	0,06		
(2,4]	0,2		
(4,6]	0,3		
(6,8]	0,3		
(8,10]	0,1		
(10,12]	0,02		
Interpretation: Diet A yields higher and more consistent weight loss; Diet B is more variable and carries a higher risk.			

Class Interval	Relative Freq			
(-6,-4]	0,02			
(-4,-2]	0			
(-2,0]	0,04			
(0,2]	0,2			
(2,4]	0,3			
(4,6]	0,22			
(6,8]	0,16			
(8,10]	0,04			
(10,12]	0,02			
Interpretation:	Diet A yields higher and more consistent weight loss; Diet B is more variable and carries a higher risk.
